Regulations, are hereby amended to read as follows:

§ 11.30 Action by directors. The board of directors of each association to be consolidated shall take appropriate action to authorize the execution of a consolidation agreement and articles of association for each association to be created as a result of the agreement. The board may designate one or more of its members to serve with representatives of each of the boards of the other associations involved as an organization committee for the formation of the new association or associations. Each board of directors, or the representatives of each association on the organization committee pursuant to authority by the association board of directors, shall execute on behalf of such associations the agreement of consolidation and articles of association on forms prescribed by the Commissioner and shall appoint not less than five or more than seven qualified persons to serve as directors for each association to be created as a result of the agreement, who will constitute the board of directors for the period intervening from the date of organization to the date fixed in the bylaws for the first annual meeting of stockholders or until their successors are elected and have qualified.

§ 11.31 Action by members. Meetings of association members shall be called in accordance with the provisions of the bylaws of the association. Notices of the meetings, containing a brief statement of the proposal shall be mailed to each stockholder of record. A favorable vote of a majority of the members present and voting at each separate meeting shall be necessary for the approval of the proposed consolidation, and such members shall adopt resolutions ratifying and approving the execution of the agreement of the consolidation and articles of association in the name of the association. The secretary-treasurer shall certify to the action taken at the meetings of members and his certificate shall set out the resolution adopted by the members ratifying the

execution of the consolidation agreement.

§ 11.32 Completing consolidation. Upon completion of the association action, one set of organization papers for each association being organized, with the bank's recommendation, and a financial statement for each constituent association and each consolidated association being created as a result of the agreement, shall be submitted to the Commissioner for consideration. Upon approval by the Commissioner, notice of such approval and the effective date of the consolidation will be sent to the bank and each consolidated association, and a charter will be issued to the new association or associations which will be forwarded to the association or associations through the bank. Upon receipt of the approval notice, the bank should provide assistance in transferring all assets in accordance with the consolidation agreement, setting up the new books and establishing such other procedures as may be found necessary. The transfer of assets should be made the day following the effective date of the consolidation, if possible. The secretary-treasurer of each new association should take appropriate action to effect changes in stock issues, and should notify promptly each of the members that the consolidation has been approved. The charters of the constituent associations should be surrendered and sent to the Administration for cancellation. The Administration should be notified by the bank of the completion of the consolidation upon the issuance of new bank stock to the new association or associations in exchange for the stock held by the constituent associations.

§ 11.33 Legal reserve requirement. The legal reserve requirement for the new association or associations at the time of completion of the consolidation shall be the total of the unimpaired legal reserves of the constituent associations.

TITLE 14—CIVIL AVIATION**Chapter I—Civil Aeronautics Board**

[Reg., Serial No. SR-383]

PART 18—MAINTENANCE, REPAIR AND ALTERATION OF AIRFRAMES, POWER PLANTS, PROPELLERS, AND APPLIANCES**PART 24—MECHANIC AND REPAIRMAN CERTIFICATES****PART 52—REPAIR STATION CERTIFICATES****SPECIAL CIVIL AIR REGULATION; LIMITED MECHANIC CERTIFICATE WITH PROPELLER OR AIRCRAFT APPLIANCE RATING**

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 10th day of July 1952.

Special Civil Air Regulation SR-365, which expires on July 31, 1952, was designed to provide for the certification of limited mechanics with propeller or aircraft appliance ratings as an interim measure until Parts 18, 24, and 52 of the Civil Air Regulations could be revised. Revisions of these parts were recently promulgated and became effective June 15, 1952. These revised parts, among other things, (1) allow a manufacturer to rebuild or alter products for which he holds a type or production certificate, or which are manufactured by him in accordance with appropriate specifications approved by the Administrator without holding a repair station certificate or employing certificated mechanics, (2) establish a new classification of airmen known as a "repairman" who may be certificated to perform propeller and aircraft appliance work for an air carrier or certificated repair station, and (3) require the reinspection of all existing repair stations with provision for reissuance of the repair station certificate if compliance with present regulations is shown.

As a result of these revisions, there is now no need for such limited mechanic certificates with respect to manufacturers or certificated repair stations. However, since the reinspection of any

particular repair station may not take place until June 15, 1953, and since, until reinspected, such repair station will continue to operate in accordance with Part 52 as it existed immediately prior to the recent revision, it is considered appropriate to extend to June 15, 1953, the authority granted by SR-365 insofar as it provides certification for limited mechanics employed by certificated repair stations. This will, in addition, lighten the administrative burden of issuing the new repairman certificates.

Since this amendment is minor in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and the amended regulation may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board makes and promulgates the following Special Civil Air Regulation effective immediately:

A mechanic certificate with a propeller or aircraft appliance rating, excepting a parachute rating, may be issued by the Administrator of Civil Aeronautics to an individual who is employed and designated by the holder of a repair station certificate with a propeller or aircraft appliance rating. The individual must be in direct charge of the inspection, overhaul, or repair of propellers or aircraft appliances, and his experience and employment record must indicate that he is competent to engage in such activity. The individual to whom a certificate is issued shall exercise the privileges of his certificate only with respect to work performed for such repair station and through the use of facilities provided by the repair station.

This regulation supersedes Special Civil Air Regulation SR-365, and shall terminate June 15, 1953, unless sooner superseded or rescinded.

PART 608—DANGER AREAS**ALTERATIONS**

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required. Part 608 is amended as follows:

1. In § 608.12, the Wilcox Dry Lake, Arizona, area, published on July 16, 1949 in 14 F. R. 4288, and amended on January 24, 1952 in 17 F. R. 715, is further amended by changing the "Description by Geographical Coordinates" column to read: "Beginning at lat. 32°14'00" N, long. 109°39'00" W; due S to lat. 32°07'00" N; W to lat. 32°07'30" N, long. 110°00'30" W; due N to lat. 32°14'00" N, long. 109°39'00" W, point of beginning."

2. In § 608.14, a Camp San Luis Obispo, California (D-416), area is added to read:

KNOXVILLE (D-414) (Sacramento Chart).	A circular area having a radius of 4 nautical miles centered at lat. 38°47'00" N, long. 122°23'00" W.	Surface to unlimited.	Continuous...	12th Naval District.

4. In § 608.18, the Tyndall Air Force Base, Panama City, Florida, Area I, published on May 26, 1950 in 15 F. R. 3212, amended on August 7, 1951 in 16 F. R. 7696, and on November 28, 1951 in 16 F. R. 11954, is further amended by changing the "Time of Designation" column to read: "Continuous, sunset to sunrise. Only Instrument Flight Rule conditions from sunrise to sunset."

5. In § 608.36, the Fallon, Nevada, area 2, Target No. 18 (D-268), published on May 20, 1952 in 17 F. R. 4558, is amended by changing the "Descrip-

tion by Geographical Coordinates" column to read: "2. Target No. 18 (D-268): A circular area having a radius of 5 miles centered at lat. 39°19'00" N, long. 118°53'30" W, excluding that portion lying north of a line connecting lat. 39°22'30" N, long. 118°50'00" W and lat. 39°23'00" N, long. 118°56'00" W." This area is amended also by changing the "Designated altitudes" column to read: "Surface to unlimited", and by changing the "Using agency" column to read: "Commander Naval Air Bases, 12th Naval District (Admin)".

PART 384—GENERAL ORDERS

ORDERS MODIFYING VALIDITY OF CERTAIN EXPORT LICENSES

Section 384.8 *Orders modifying validity of certain export licenses* is amended by adding a new paragraph (d) to read as follows:

(d) *Steel products.* The validity period of all export licenses covering steel products identified on the Positive List by the Processing Codes "STEE" and "TNPL", having an expiration date on or after June 2, 1952, is hereby extended for the duration of the steel strike plus 90 days. This order applies to all such licenses whether or not the exporter's source of supply is involved in the work stoppage.

This action is not applicable to the use or extension of any rating or allotment authority granted under the Controlled Materials Plan or any other supply assistance program in connection with such licenses and exportations.

This order shall be effective as of July 10, 1952.

Chapter XIV—The Renegotiation Board

Subchapter B—Renegotiation Board Regulations Under the 1951 Act

PART 1453—MANDATORY EXEMPTIONS FROM RENEgotiation

The Renegotiation Board hereby adopts the proposed amendment of § 1453.2 (d) which was published on April 5, 1952 (17 F. R. 3000 to 3001), with the following changes:

1. In subparagraph (3) (ii), the word "purchases" appearing in the third sentence is changed to read "purchase".
2. In subparagraph (7), the word "contents" appearing in the second sentence is changed to read "contract".

3. In subparagraph (7), delete the word "Since" in the next to the last sentence and insert the words "Assuming that".

4. Add a new subparagraph (8) to read as follows:

(8) *Procedure.* A contractor who claims that a portion of its profits attributable to the increment in value of excess inventory should be excluded from consideration in determining whether or not it has received excessive profits shall give notice to the Board of such claim at the time of or before such contractor completes the filing of the Standard Form of Contractor's Report (RB Form 1B). The Regional Board to which the contractor is assigned for renegotiation will request the contractor to substantiate its claim before conclusion of the renegotiation if it appears that, without regard to the provisions of this paragraph, excessive profits exist.

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 7, Interpretation 1]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

INT. 1—COVERAGE OF AUCTIONEERS

An auctioneer who operates a used household furniture and furnishings, antiques and bric-a-brac store is subject to CPR 7 as to articles covered by that regulation if he holds title to the merchandise when he sells it, providing that he buys and sells it in substantially the same form and is not exempted under sections 2 and 3. If the auctioneer does not have title to the merchandise when he sells it, but merely acts as an agent for another, sales of articles covered by CPR 7 are governed by that regulation only if the owner is subject to it.

[Ceiling Price Regulation 7, Interpretation 2]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

INT. 2—PRICING OF JOB LOT MERCHANDISE (SECTIONS 30 THROUGH 39)

A retailer who purchases quantity job lots for a lump sum determines his ceiling prices under CPR 7 by allocating the total cost of the purchase in any reason-

able manner among the articles included in the job lot. A notation should be made on the invoice or other cost record indicating how the total cost of the job lot has been allocated. The job lot purchased merchandise may then be priced by applying the pricing rules in sections 30 through 39 of CPR 7.

If all of the retailer's merchandise in a category has been purchased in job lots, he may not use such purchases as the basis for establishing markups for that category on his pricing chart. He must determine the ceiling prices for such articles by applying either sections 36, 37 or 39 (e).

[Ceiling Price Regulation 7, Interpretation 3]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

INT. 3—COMPANY SELLING THROUGH DOOR-TO-DOOR SALESMEN

A company sells a commodity through house-to-house "dealers," who pocket the deposits as commission, whereupon the company delivers the merchandise, collecting and retaining the balance. The questions are raised as to whether, on such sales to ultimate consumers, the company is subject to CPR 7, and, if so, how the offering price is computed.

If the article in question is covered by CPR 7, the company is subject to CPR 7 unless it meets the requirements for exemption contained in sections 2 or 3 of that regulation. The relationship between the company and its "dealers" would appear to be that of principal and agent; the so-called "dealer" does not buy the articles from the company and sell them, but rather it appears that the company itself sells the articles through salesmen.

The offering price for the article is the full price at which the article was sold by the salesmen on the list date, with no deduction allowed for the commission.

[General Overriding Regulation 31]

GOR 31—AIR FREIGHT DURING STRIKE EMERGENCY ON SHIPMENTS TO HAWAII

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this General Overriding Regulation 31 is hereby issued.

STATEMENT OF CONSIDERATIONS

The continuation of the maritime strike on the west coast has caused a shortage of vaccines and serums for animals and fowls in the Territory of Hawaii. The Governor's Emergency Committee, established for the purpose of considering such problems, has recommended that these items be brought into the Territory by air freight and that the Office of Price Stabilization permit sellers of these items to add air freight dead to their present ceiling price. The Office of Price Stabilization has carefully considered this recommendation and has determined that it is appropriate to permit sellers of vaccines and serums for animals and fowls to add to their ceiling prices otherwise established, the increased costs of shipping these vaccines and serums by air freight as provided in this regulation.

This general overriding regulation has been so drafted that other critical items may be added to its coverage if the need should arise, but it should be noted that the Office of Price Stabilization will include additional commodities only in cases of critical necessity.

The Office of Price Stabilization contemplates that this regulation will be revoked as soon as the strike is settled as to all commodities not actually delivered or in transit at that time.

Because of the nature of this general overriding regulation, consultation with the industry affected, including trade representatives, has not been practicable.

REGULATORY PROVISIONS

Sec.

1. Freight increases.

SECTION 1. Freight increases. (a) If you sell any commodity listed in Appendix A to this General Overriding Regulation and if the commodity, at the time there is a binding agreement to buy and sell, is located in the Territory of Hawaii and if, because of the maritime strike on the west coast of the United States, you incurred air freight charges and charges for special packaging for air shipment of the commodity, you must determine your ceiling price for the commodity under the applicable ceiling price regulation as if transportation had been by normal means. You may then charge the buyer, in addition to such ceiling price, an amount not to exceed the difference between the cost of transportation by normal means and the air freight and special packaging charges actually incurred by you for the commodity, provided that such additional amount which you charge the buyer is shown on your invoice, for all sales except sales at retail, as the amount of air freight and special packaging charges passed on by you, as required by section 2.

(b) If you sell any commodity listed in Appendix A to this General Overriding Regulation and if the commodity, at

the time there is a binding agreement to buy and sell, is located in the Territory of Hawaii and if, because of the maritime strike on the west coast of the United States, air freight and charges for special packaging are passed on to you by your supplier under this regulation, you must, in determining your ceiling price for the commodity under the applicable ceiling price regulation, exclude from your direct cost the amount listed on your supplier's invoice to you as the amount of air freight and special packaging charges passed on to you for the commodity. You may then charge the buyer, in addition to such ceiling price, an amount not to exceed the amount of air freight and special packaging charges passed on to you by your supplier as shown by your supplier's invoice for the commodity, provided that such additional amount which you charge the buyer is shown on your invoice, for all sales except sales at retail, as the amount of air freight and special packaging charges passed on by you, as required by section 2.

SEC. 2. Invoices. If you sell any commodities under this general overriding regulation, you must furnish each purchaser, except a retail purchaser, an invoice stating separately for each commodity the amount of the air freight and special packaging charges passed on by you under this general overriding regulation. This information may be included on the invoice you customarily furnish or which you are required to furnish under any other applicable OPS regulation.

SEC. 3. Applicability of other regulations. All of the provisions of all other applicable regulations except as modified by this general overriding regulation continue in full force and effect.

Effective date. This General Overriding Regulation 31 is effective July 15, 1952.

NOTE: The record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[CMP Regulation No. 1, Direction 12 as Amended July 15, 1952]

CMP REG. 1—BASIC RULES OF THE CONTROLLED MATERIALS PLAN

DIR. 12—RESTRICTIONS ON STEEL SHIPMENTS AND ACCEPTANCE OF DELIVERIES

This amended direction under CMP Regulation No. 1 is found necessary and appropriate to promote the national defense and is issued pursuant to the De-

fense Production Act of 1950, as amended. In the formulation of this direction as amended, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

REGULATORY PROVISIONS

Sec.

1. What this direction does.
2. Prohibition on shipments and acceptance of deliveries.

AUTHORITY: Sections 1 and 2 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. What this direction does. The purpose of this direction is to reduce disruption to the national defense program resulting from the work stoppage in the steel producing industry. This will be accomplished by prohibiting shipments and acceptance of deliveries of specified kinds of steel controlled materials for certain less essential uses.

SEC. 2. Prohibition on shipments and acceptance of deliveries. From the effective date of this amended direction until a date to be specified in a further amendment to or by revocation of this direction, no person shall accept delivery of steel controlled materials in the forms and shapes indicated in Schedule I of this direction from a steel distributor as defined in NPA Order M-6A, if such steel (a) was ordered pursuant to an authorized controlled material order bearing the program identification V followed by a digit, or (b) is to be used in the manufacture of products pursuant to authorized production schedules bearing the program identification V followed by a digit: *Provided, however, That nothing in this section shall be construed to prohibit the shipment, acceptance of delivery, or use of such steel if ordered pursuant to an authorized controlled material order identified by the suffix program identification B-5. No person shall make shipment of such steel if he knows or has reason to believe that its acceptance will constitute a violation of the provisions of this section.*

This direction, as amended, shall take effect July 15, 1952.

Chapter XVI—Production and Marketing Administration, Department of Agriculture

[Defense Food Order 1, as Amended, Sub-Order 1]

DFO-1—CASTOR OIL

SO 1—AMENDMENT OF APPENDIX A

It is hereby found and determined that the provisions of this order are necessary and appropriate to promote the national defense; and it is, therefore, made effective pursuant to the authority vested in me by Defense Food Order 1, as amended (17 F. R. 401). In the formulation of this order there has been consultation with industry representatives, and consideration has been given to their recommendations. Consultation with representatives of trade associations in the formulation of this order has been rendered impracticable inasmuch as there is no trade association, as such, with respect to the castor oil industry and this order applies to numerous trades.

SUMMARY OF SUB-ORDER

Under Defense Food Order 1, as amended, the Director of the Fats and Oils Branch, Production and Marketing Administration, is authorized to amend Appendix A to Defense Food Order 1. This sub-order indicates the new maximum amount of castor oil that may be used in certain specified class uses by setting forth amended percentages for the respective class uses listed in Appendix A. The changes effected by this order are designed to give recognition to the improved castor oil supply situation by allowing users of castor oil to benefit from such situation and are in keeping with the Department's policy of easing controls whenever the supply and demand picture is such as to allow this action.

Definitions. Terms used in this sub-order shall have the same meaning as when used in Defense Food Order 1, as amended (17 F. R. 401).

Appendix A. Commencing with the calendar quarter beginning on July 1, 1952, Appendix A to Defense Food Order 1 is amended to read as follows:

APPENDIX A TO DEFENSE FOOD ORDER 1

Class use	Percent
Medicinal and pharmaceutical preparations	100
Protective linings for the inside of food containers	100
Demulsification of petroleum products	100
Synthetic, foam and natural rubber	100
Rubber factice	100
Hydraulic fluid	100
Lubricating grease	100
Electrical insulation	100
Leather	100
Sebacic acid	100
Textiles	80
Imitation leather and coated fabrics	80
Brake lining	80
Paint, varnish, lacquer, resins, and paint vehicles	80
Pigment and dye	80
Plastics	80
All other	50

Effective date. This sub-order shall become effective July 1, 1952.

RULES AND REGULATIONS

With respect to violations, rights accrued, liabilities incurred, or appeals taken with respect to said Defense Food Order 1, as amended, prior to the effective time of the provisions hereof, all provisions of said Defense Food Order 1, as amended, shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders
[Public Land Order 854]

ALASKA

WITHDRAWING PUBLIC LANDS FOR USE OF
DEPARTMENT OF THE AIR FORCE FOR
MILITARY PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Department of the Air Force for military purposes:

FAIRBANKS MERIDIAN

CLAIMS

CONTESTED CLAIMS; SCOPE OF TERM

In § 4.55, paragraph (a) is amended to read as follows:

§ 4.55 Contested claims—(a) Scope of term. The provisions of this section are applicable to claims filed by two or more persons for the same benefit where the allowance of one claim would necessitate disallowance of the other claim. This includes claims alleging legal widowhood, and claims of two or more persons alleging to have been the last in the same parental line to have stood in place of a parent to the veteran.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

[7 CFR Part 319]

PACKING MATERIALS; FLAG SMUT

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Secretary of Agriculture, pursuant to sections 5 and 7 of the Plant Quarantine Act of 1912 (7 U. S. C. 159, 160), is considering amending 7 CFR Part 319 in the following respects:

1. Section 319.69 (a) would be amended by inserting a footnote referring to the restrictions on importations of wheat straw, hulls, and chaff contained in 7 CFR 319.59 et seq.;

2. Section 319.69 (b) would be amended to provide that wheat straw, hulls, and chaff, used as packing materials, shall not be permitted conditional entry into the United States when imported from Aden Protectorate, Afghanistan, Australia, Bulgaria, Caucasus (including Azerbaijan, South Russia, and Transcaucasia), Chile, China, Cyprus, Egypt, Germany, Greece, India, Iran, Iraq, Israel, Italy, Japan, Netherlands, Oman, Pakistan, Palestine, Portugal, Saudi Arabia, Sinai Peninsula, Spain, Syria, Trans-Jordan, Tunisia, Turkestan, Turkey, Union of South Africa, and Yemen; and

3. Section 319.59, the notice of quarantine relative to flag smut, would be revised and new regulations would be promulgated thereunder, as follows:

NOTICE OF QUARANTINE NO. 59, REVISED

§ 319.59 Notice of quarantine. The Secretary of Agriculture, having given the public hearing required by law, has determined that an injurious plant disease known as the flag smut disease of wheat, caused by the fungus *Urocystis tritici* Koernicke, not heretofore widely prevalent or distributed within or throughout the United States, is known or believed to exist in various foreign countries, listed below, and that the unrestricted importation from such foreign countries of the products listed below may result in the entry into the United States of the flag smut disease. Therefore, pursuant to sections 5 and 7 of the Plant Quarantine Act of 1912 (7 U. S. C. 159, 160), the Secretary of Agriculture, in order to prevent the introduction into the United States of the flag smut disease, forbids the importation into the

United States from Aden Protectorate, Afghanistan, Australia, Bulgaria, Caucasus (including Azerbaijan, South Russia, and Transcaucasia), Chile, China, Cyprus, Egypt, Germany, Greece, India, Iran, Iraq, Israel, Italy, Japan, Netherlands, Oman, Pakistan, Palestine, Portugal, Saudi Arabia, Sinai Peninsula, Spain, Syria, Trans-Jordan, Tunisia, Turkestan, Turkey, Union of South Africa, and Yemen of (a) all species and varieties of wheat (*Triticum*, spp.), (b) wheat straw, hulls, and chaff, (c) wheat products of the milling process, such as bran, shorts, thistle sharps, and pollards, (d) seeds of *Mellilotus indica*, and seeds of any field crop that have been separated from wheat during the process of screening, and (e) containers of the foregoing products not otherwise provided for in any other subpart,¹ except as provided in the regulations supplemental to this quarantine.

REGULATIONS

§ 319.59-1 Definitions. Words used in the singular form in the regulations in this subpart shall be deemed to impart the plural, and vice versa, as the case may demand. For the purposes of the regulations in this subpart the following words shall be construed, respectively, to mean:

(a) **Chief of Bureau.** The Chief of the Bureau of Entomology and Plant Quarantine, or any officer or employee of the Bureau to whom authority has heretofore been delegated or may hereafter be delegated to act in his stead.

(b) **Bureau.** The Bureau of Entomology and Plant Quarantine, United States Department of Agriculture.

(c) **Inspector.** Any person authorized by the Secretary of Agriculture of the United States to enforce the provisions of the Plant Quarantine Act.

(d) **Person.** Any individual, firm, corporation, company, society, association, or other organized group of any of the foregoing.

(e) **Importer.** The permittee, agent of the permittee, or other person bringing to the United States plant material which is subject to the quarantine and regulations in this subpart.

(f) **Flag smut.** The fungus disease known as the flag smut disease of wheat (*Urocystis tritici* Koern.), in any stage of development.

(g) **Wheat straw, hulls, or chaff.** Straw, hulls, or chaff of wheat, whether imported independently or in connection with or attached to any other importation.

(h) **Used bags.** Used bags of gunny or any other fabric, not otherwise provided for in any other subpart, that are being used as containers for enterable products.

(i) **Imported.** Brought to the United States from a country or locality design-

nated in § 319.59, whether directly from such country or via another country.

(j) **Permit.** An authorization allowing the importation of enterable products in accordance with the regulations in this subpart.

§ 319.59-2 Products prohibited entry. Wheat, and wheat products, except such wheat products as have been so milled or so processed as to have destroyed all flag smut spores, are prohibited entry.

§ 319.59-3 Enterable products and conditions for their entry. (a) Wheat flour may be imported without complying with any of the requirements of this subpart.

(b) Upon compliance with the requirements for permit in § 319.59-5 and notice of arrival in § 319.59-6, the following products may be imported under the conditions stated:

(1) **Wheat products other than flour.** Wheat products, other than wheat flour, may be imported after it has been determined by an inspector that they have been so milled or so processed as to have destroyed all flag smut spores that may have been present.

(2) **Wheat straw, hulls, and chaff, field crop seeds, and containers thereof.** Wheat straw, hulls, and chaff, and seeds of *Mellilotus indica* and seeds of any other crop that have been separated from wheat during the screening process, and containers thereof not otherwise restricted, may be imported subject to treatment upon arrival.

§ 319.59-4 Treatment. All products enterable under § 319.59-3 (b) (2) shall be treated upon arrival in the United States by the application of 5 percent ethyl mercury phosphate dust, or other chemical or method found by the Chief of the Bureau to be substantially as effective as 5 percent ethyl mercury phosphate dust in eliminating flag smut infection; or shall be processed or utilized as authorized by the inspector in a manner to destroy such infection. Any such processing or utilization of containers shall be in conformity with § 319.8-9 (e). The schedule of treatment or method of processing or utilization of enterable products shall be according to a method selected by the inspector in accordance with administratively authorized procedures known to be effective under the applicable conditions and with due recognition of any health hazards involved. Neither the Department of Agriculture nor the inspector shall be deemed responsible for any adverse effects of any such treatment. Treated seeds should be planted without delay in order to avoid reduced germination. All costs of such treatments, other than the services of an inspector during regularly assigned hours of duty and at the usual places of duty, shall be paid by the importer.

§ 319.59-5 Applications for and issuance of permits. Any person desiring to import enterable products, other than wheat flour, shall first submit to the Bureau an application stating the name and address of the importer, the approximate quantity and kinds of products it is desired to import, the country where grown (country of origin in the case of

containers referred to in § 319.59), the port of entry into the United States, the name and address of the agent, if any, representing the importer, and the means of transportation to be employed. Such enterable material may be imported only after a permit has been issued.

§ 319.59-6 Notice of arrival. A notice shall be submitted by the importer, in duplicate, through the United States Collector of Customs, to the United States Department of Agriculture, immediately upon arrival at a port of entry of any shipment of products, other than wheat flour, enterable under this subpart. Such a notice is to be submitted on a form provided for that purpose by the Bureau (Form EQ-368) and shall contain the information called for by that form.

§ 319.59-7 Shipments for experimental and scientific purposes. Articles subject to the requirements of the regulations in this subpart may be imported by the United States Department of Agriculture for experimental or scientific purposes, on such conditions and under such safeguards as may be prescribed by the Chief of Bureau. The container of articles so moved shall bear, securely attached to the outside thereof, an identifying tag from the Bureau.

The proposed amendments would add a footnote to § 319.69 (a) of the regulations supplementary to the Packing Materials Quarantine referring to the restrictions on importations of wheat straw, hulls, and chaff contained in the Flag Smut Disease Quarantine and supplementary regulations and would amend § 319.69 (b) of the regulations supplementary to the Packing Materials Quarantine so as to provide that wheat straw, hulls and chaff, used as packing materials, shall not be permitted conditional entry into the United States when imported from certain designated countries. These wheat products might also introduce the flag smut disease.

The proposed amendments to § 319.59, the notice of quarantine relating to the flag smut disease, would extend the quarantine to include Afghanistan, Bulgaria, Caucasus (including Azerbaijan, South Russia, and Transcaucasia), Chile, Cyprus, Egypt, Germany, Greece, Iran, Israel, Netherlands, Pakistan, Palestine, Portugal, Tunisia, Turkestan, and Turkey, in which flag smut is known to occur, as well as Aden Protectorate, Iraq, Oman, Saudi Arabia, the Sinai Peninsula, Syria, Trans-Jordan, and Yemen. The latter eight countries are surrounded by countries where flag smut disease is known to occur. No reports are available concerning the existence of the disease in these eight countries. It is believed, however, that if adequate flag smut surveys were made there the disease would be found. It is therefore proposed that these countries also be included in the quarantine.

The proposed amendments to said Notice of Quarantine add to the quarantined products a number of by-products of the wheat screening and milling processes that might introduce the flag smut disease. Bags or other containers that might be contaminated with disease spores, and not already regulated in an-

¹Section 319.8-9 restricts the importation from countries where the flag smut disease is known to occur of bags or parts of bags that have been used as containers of wheat or wheat products not so processed as to have destroyed all flag smut disease spores, or have been used as containers of field seeds separated from wheat during the process of screening.

PROPOSED RULE MAKING

other subpart, would similarly be added to the quarantined articles.

Provision would be made in the proposed supplementary regulations for the importation of certain by-products of the wheat screening and milling processes upon adequate treatment.

All of these proposals are in accordance with unopposed recommendations of the Department of Agriculture made at the March 30, 1951 public hearing on this subject.

All persons who desire to submit written data, views, or arguments in connection with these proposals should file the same with the Chief of the Bureau of Entomology and Plant Quarantine, Agricultural Research Administration, United States Department of Agriculture, Washington 25, D. C., within 30 days after the date of publication of this notice in the *FEDERAL REGISTER*.

NOTICE OF PROPOSED RULE MAKING

On February 8, 1951, there was published in the *FEDERAL REGISTER* (16 F. R. 1204) a notice concerning a public hearing to consider revising the various quarantines, orders, and regulations concerning the importation into the United States and the movement between the territories and possessions and the mainland of the United States of cotton, cotton products, and cotton wrappings. These matters were discussed at a public hearing in Washington, D. C., on March 28, 1951. Study of the testimony at the hearing and all other available information has resulted in a decision to propose that the existing order restricting the entry of cottonseed oil from Mexico be revoked and that such other quarantines, orders, and regulations affecting imports be revised and combined into one quarantine, with supplemental regulations.

Accordingly, notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Secretary of Agriculture, pursuant to sections 5 and 7 of the Plant Quarantine Act (7 U. S. C. 159, 160), is considering revoking the order restricting the entry of cottonseed oil from Mexico into the United States (7 CFR 321.202); and further, is considering revising and combining into one quarantine, with supplementary regulations, under a new subpart heading "Foreign Cotton," the foreign pink bollworm of cotton quarantine and regulations (7 CFR 319.8, 319.8-1 et seq.), the order regulating the admission into the United States of foreign cotton lint (7 CFR 321.101), the regulations governing the importation of

cotton and cotton wrappings into the United States (7 CFR 321.102 et seq.), the order restricting the admission into the United States of cottonseed cake, cottonseed meal, and all other cottonseed products except cottonseed oil (7 CFR 321.201), and the regulations governing the importation into the United States of cottonseed cake, cottonseed meal, and other cottonseed products (7 CFR 321.203 et seq.), said proposed revised and combined quarantine and regulations to read substantially as follows:

§ 319.8 *Notice of quarantine.* The Secretary of Agriculture having previously prohibited the importation for any purpose of cotton lint, baled, or unbaled; cotton and cotton wrappings; cottonseed and cottonseed hulls; and cottonseed cake, meal, and all other cottonseed products, except oil, from all foreign localities and countries, with certain exceptions as provided in the respective orders and notice of quarantine and regulations supplemental thereto, now determines that the finding in foreign countries of additional pests of cotton and pests associated with the movement of cotton and certain other commodities makes it necessary to amend and consolidate the said orders and notice of quarantine, and supplemental regulations.

Under authority conferred by section 5 of the Plant Quarantine Act of August 20, 1912, as amended (7 U. S. C. 159), and having given the public hearing required thereunder, the Secretary of Agriculture, in order to prevent the introduction into the United States of the pink bollworm of cotton (*Pectinophora gossypiella* (Saund.)), the golden nematode of potatoes (*Heterodera rostochiensis* Wr.), the flag smut disease (*Urocystis tritici* Koern.), and other injurious insect pests and plant diseases, hereby prohibits the importation into the United States, including the District of Columbia, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States, of (a) all parts and products of plants of the genus *Gossypium*, including seed cotton; cottonseed; cotton lint, linters, and other forms of cotton fiber; cottonseed hulls, cake, meal, and other cottonseed products, except oil; cotton waste; and all other unmanufactured parts of cotton plants; and (b) second-hand burlap and other fabric which have been used, or are of the kinds ordinarily used, for wrapping or containing cotton, or for containing or transporting grains, field seeds, agricultural roots, rhizomes, tubers, or other underground crops. Burlap and other fabric, when new or unused, are excluded from this definition.

shall be made less stringent, whereupon such modification shall become effective.

REGULATIONS

§ 319.8-1 *Definitions.* For the purposes of the regulations in this subpart, the following words shall be construed, respectively, to mean:

(a) *Cotton.* Parts and products of plants of the genus *Gossypium*, including seed cotton; cottonseed; cotton lint, linters and other forms of unmanufactured cotton fiber; cottonseed hulls, cake, meal, and other cottonseed products, except oil; cotton waste; and all other unmanufactured parts of cotton plants.

(b) *Cottonseed.* Cottonseed from which the lint has been removed.

(c) *Seed cotton.* Cotton as it comes from the field.

(d) *Lint.* All forms of raw or unmanufactured ginned cotton, either baled or unbaled, except linters and waste.

(e) *Linters.* All forms of unmanufactured cotton fiber separated from cottonseed after the lint has been removed, excluding so-called "hull fiber" which shall be considered in the same category as waste.

(f) *Waste.* All forms of cotton waste derived from the manufacture of cotton lint, in any form or under any trade designation, including gin waste; and waste products derived from the milling of cottonseed.

(g) *Clean waste.* Waste that has been manufactured or processed in such a manner as to remove all uncrushed cottonseed or to have destroyed all insect life.

(h) *Bale covers.* Second-hand burlap and other fabric which have been used, or are of the kinds ordinarily used, for wrapping or containing cotton, or for containing or transporting grains, field seeds, agricultural roots, rhizomes, tubers, or other underground crops. Burlap and other fabric, when new or unused, are excluded from this definition.

(i) *Uncompressed cotton.* Cotton which has not been compressed, sometimes referred to as "gin" bales or "flat" bales.

(j) *Compressed cotton.* Cotton which has been compressed.

(k) *High density cotton.* Baled cotton compressed to a density of 28 or more pounds per cubic foot.

(l) *Contamination, contaminated.* Containing an admixture of whole cottonseed or seed cotton, or containing material which may carry golden nematode of potatoes or the flag smut disease.

(m) *Samples.* Samples of lint, linters, waste, cottonseed cake, and cottonseed meal, of the amount and character usually required for trade purposes.

(n) *North, northern.* When used to designate ports of arrival, the terms mean the port of Norfolk, Virginia, and all Atlantic Coast ports north thereof, ports along the Canadian border, and Pacific Coast ports in the States of Washington and Oregon. When used in a geographic sense to designate areas or locations, the terms mean the area comprised of States in which cotton is not grown commercially: *Provided*, That when cotton is grown commercially in certain portions of a State as in the

case in Illinois, Kansas, and Missouri, the terms include only those portions of such State as may be administratively designated by the Chief of Bureau as remote from the main area of cotton production.

(o) *Contiguous areas of Mexico.* The cotton producing areas of Mexico contiguous to cotton-producing areas in that part of the United States designated as regulated area in Federal pink bollworm regulations (7 CFR Supp. 301.52-2).

(p) *West Coast of Mexico.* The State of Sinaloa and the State of Sonora, except that part of the Imperial Valley lying between San Luis Mesa and the Colorado River.

(q) *Imperial Valley, Mexico.* The Imperial Valley in the State of Baja California, including that portion of the Valley in the State of Sonora, Mexico, lying between San Luis Mesa and the Colorado River.

(r) *Treatment.* Procedures administratively approved by the Chief of Bureau for destroying infestations or infections of the insect pests or plant diseases referred to in § 319.8, such procedures to include fumigation, application of chemicals or dry or moist heat, and processing, utilization, or storage.

(s) *Permit.* A form of authorization to allow the importation of cotton in accordance with the regulations in this subpart.

(t) *Approved.* Approved by the Chief of Bureau.

(u) *Authorized.* Authorized by the Chief of Bureau.

(v) *Chief of Bureau.* The Chief of the Bureau of Entomology and Plant Quarantine, or any officer or employee of the Bureau to whom authority has heretofore been delegated or may hereafter be delegated to act in his stead.

(w) *Bureau.* The Bureau of Entomology and Plant Quarantine of the United States Department of Agriculture.

(x) *Inspector.* Any person authorized by the Secretary of Agriculture to enforce the provisions of the Plant Quarantine Act.

(y) *Person.* Any individual, firm, corporation, company, society, association, or any organized group of any of the foregoing.

CONDITIONS OF ENTRY OF COTTON AND BALE COVERS

§ 319.8-2 *Application for and issuance of permits.* (a) Except as otherwise provided for in § 319.8-15, permits shall be obtained for importations of all cotton and bale covers. Persons desiring to import such material shall, in advance of departure of such material from a foreign port, submit to the Bureau an application¹ stating the name and address of the importer, the country from which such material is to be imported, and the kind of cotton or bale covers it is desired to import. In respect to cottonseed, the application shall also state the approximate quantity and the proposed United States port of entry. In respect to lint, linters, and waste, the application shall

state whether such materials are compressed or uncompressed.

(b) When entry of lint, linters, or waste is requested at a port other than one in the North or on the Mexican Border, the application shall also specify whether the commodity is compressed to high density.

(c) Applications to import cotton or bale covers from contiguous areas of Mexico, the West Coast of Mexico, or the Imperial Valley of Mexico, shall state the place of origin.

(d) If through no fault of the importer a shipment of cotton or bale covers arrives at a United States port in advance of the issuance of a permit, it may be held, under suitable safeguards prescribed by the inspector at the port, in Customs custody at the risk of the importer, pending issuance of a permit, for a period not exceeding 20 days.

(e) Applications for permits may be made orally or on forms provided for the purpose by the Bureau, or may be made by a letter or telegram containing all the information required by this section.

(f) Upon receipt and approval of such application by the Bureau, a permit will be issued authorizing the importation and specifying the port of entry and the conditions of entry. A copy of the permit will be supplied to the importer.

(g) Upon receipt of an application to import unfumigated lint, linters, waste, or bale covers, for utilization or processing under agreement as defined in § 319.8-6 (a) (2), an investigation will be made by an inspector to determine that the receiving mill is satisfactorily located geographically, is equipped with all necessary safeguards, and is apparently in a position to fulfill all precautionary conditions to which it may agree. Upon determination by the inspector that these qualifications are fulfilled, the mill may sign an agreement specifying that the required precautionary conditions will be maintained, whereupon a permit will be granted for the entry and utilization of such materials.

§ 319.8-3 *Refusal of permits.* (a) Permits for the importation of cotton and bale covers from contiguous areas of Mexico as authorized in § 319.8-10 may be refused and existing permits canceled (1) if, in the opinion of the Chief of Bureau, effective quarantine measures are not maintained by the duly authorized officials of Mexico to prohibit the movement into such contiguous areas of cotton and bale covers from parts of Mexico infested by the pink bollworm of cotton or from countries other than the United States, or (2) if the cotton and bale covers have not been produced and handled under conditions paralleling those required by § 301.52-1 et seq. of this chapter, for like products originating in parts of the United States designated as regulated areas in § 301.52-2 of this chapter or amendments thereof.

(b) Permits for the importation of lint or linters from the West Coast of Mexico as authorized in § 319.8-11 may be refused and existing permits canceled (1) if, in the opinion of the Chief of Bureau, effective quarantine measures are not maintained by the duly authorized offi-

cials of Mexico to prohibit the movement into the West Coast of Mexico of cotton and bale covers from other parts of Mexico infested by the pink bollworm of cotton or from countries other than the United States, or (2) if it has been determined by the Bureau that the pink bollworm of cotton exists in the area comprising the West Coast of Mexico.

(c) Permits for the importation of cotton and bale covers from the Imperial Valley of Mexico as authorized in § 319.8-12 may be refused and existing permits canceled (1) if, in the opinion of the Chief of Bureau, effective quarantine measures are not maintained by the duly authorized officials of Mexico to prohibit the movement into the State of Baja California of cotton and bale covers from other parts of Mexico or from countries other than the United States, (2) if it has been determined by the Bureau that the pink bollworm of cotton exists in the Imperial Valley of Mexico, or (3) if cottonseed is moved to the Territory of Baja California from areas of Mexico infested with the pink bollworm of cotton or from countries other than the United States, or other pest hazards are discovered or allowed to develop therein which in the opinion of the Chief of Bureau would increase the risk of pest introduction into the United States by the continued operation of § 319.8-12.

§ 319.8-4 *Notice of arrival.* Immediately upon arrival of any shipment of restricted cotton or bale covers at a port of entry the importer shall submit in duplicate, through the United States Collector of Customs and for the United States Department of Agriculture, a notice of such arrival, on a form provided for that purpose (Form EQ-368) and shall give such information as is called for by that form.

§ 319.8-5 *Marking of containers.* Every bale or other container of lint, linters, waste, or bale covers offered for entry shall be plainly marked with a bale number or other mark to distinguish it from other bales or containers.

ADDITIONAL CONDITIONS FOR ENTRY OF COTTON AND BALE COVERS FROM COUNTRIES OTHER THAN MEXICO

§ 319.8-6 *Lint, linters, and waste—* (a) *Compressed to high density.* (1) Entry of lint, linters, and waste from countries other than Mexico, compressed to high density, will be authorized, subject to vacuum fumigation, at any port where approved vacuum fumigation facilities are available or may hereafter be made available and where there are inspectors at the port to supervise such fumigation.

Such importations of lint, linters, and waste, other than clean waste, arriving at a northern port where there are no approved vacuum fumigation facilities may be entered for transportation to another northern port where such facilities are available, for fumigation.

Lint, linters, and waste other than clean waste, arriving at a port in the State of California, will be released at such port only after they have been given vacuum fumigation in an approved plant located thereat. If there are no approved vacuum fumigation facilities at

PROPOSED RULE MAKING

the port of arrival, entry of such materials is authorized only for immediate transportation by all-water route to a port where approved vacuum fumigation facilities are available, there to receive the required fumigation before release.

(2) Entry of lint, linters, and waste from countries other than Mexico, when compressed to high density, will be authorized without vacuum fumigation at any northern port, subject to movement to an approved mill or plant the owner or operator of which has executed an agreement with the Bureau to the effect that, in consideration of the waiving of vacuum fumigation as a condition of entry and the substitution of approved utilization therefor:

(i) The lint, linters, and waste so entered will be consumed at the mill or plant in a manufacturing process and until so consumed will be retained at the mill or plant, unless written authority is granted by the Bureau to move the material to another mill or plant;

(ii) Sanitary measures satisfactory to the Bureau will be taken with respect to the collection and disposal of any waste, residues, and bale covers, including the collection and disposal of refuse from railroad cars, trucks, or other carriers used in transporting the material to the mill or plant;

(iii) Inspectors of the Bureau will have access to the mill or plant at any reasonable time to observe the methods of handling the material, the disposal of refuse, residues, waste, and bale covers, and otherwise to check compliance with the terms of the agreement;

(iv) Such reports of the receipt and utilization of the material, and disposal of waste therefrom as may be required by the inspector will be submitted to him promptly;

(v) Such other requirements as may be necessary in the opinion of the Chief of Bureau to assure retention of the material, including all wastes and residues, at the mill or plant and its utilization or disposal in a manner that will eliminate all pest risk, will be complied with.

(3) Failure to comply with any of the conditions of the agreement may be cause for immediate cancellation of the agreement by the inspector.

(4) Agreements may be executed with owners or operators of mills or plants located in States in which cotton is not grown commercially and at locations in such other States as may be administratively designated by the Chief of Bureau after due consideration of possible pest risk involved and the proximity of growing cotton.

(b) *Uncompressed or compressed below high density.* (1) Entry of lint, linters, and waste, uncompressed or compressed below high density, from countries other than Mexico, will be authorized, subject to vacuum fumigation, through any northern port, through any port in the State of California, and through any port on the Mexican Border, where approved vacuum fumigation facilities are available, or may hereafter be made available, and where there are inspectors at the port to supervise such fumigation.

Such importations arriving at a northern port where there are no approved

vacuum fumigation facilities may be entered for immediate transportation in bond to a northern port where such facilities are available, for fumigation.

Such importations of lint, linters, and waste other than clean waste, arriving at a port in the State of California, are eligible for release at such port only after they have been given vacuum fumigation in an approved plant located thereat. If there are no approved vacuum fumigation facilities at the port of arrival, entry of such materials will be authorized only for immediate transportation by all-water route to any port in California or any northern port where approved vacuum facilities are available, there to receive the required vacuum fumigation before release.

(2) Entry without vacuum fumigation is authorized for compressed lint, linters, and waste from all countries other than Mexico, and for uncompressed waste derived from cotton milled in non-cotton-producing countries, arriving at a northern port, subject to movement to an approved mill or plant the owner or operator of which has executed an agreement with the Bureau as described in § 319.8-6 (a) (2).

(c) *Manufactured or processed.* Vacuum fumigation will not be required for lint, linters, clean waste, and other forms of cotton imported from countries other than Mexico when the inspector can determine that such lint, linters, waste, and other forms of cotton have been so manufactured, or so processed by bleaching, dyeing or other means, as to have removed all seed or to have destroyed all insect life.

Fumigation of hull fiber imported from countries other than Mexico will not be required when an inspector has determined that such hull fiber is free of cottonseed.

§ 319.8-7 *Cottonseed cake and cottonseed meal.* Entry of cottonseed cake and cottonseed meal from countries other than Mexico may be authorized through any port at which the services of an inspector are available, subject to examination by an inspector for freedom from contamination. If found to be free of such contamination, importations of such cottonseed cake and cottonseed meal may be released from further plant quarantine entry restrictions. If found to be contaminated such importations will be refused entry or subjected as a condition of entry and release to such safeguards as the inspector may prescribe, according to a method selected by him from administratively authorized procedures known to be effective under the conditions under which the safeguards are applied.

§ 319.8-8 *Cottonseed or seed cotton for experimental or scientific purposes.* Entry of small quantities of cottonseed or seed cotton for experimental or scientific purposes may be authorized through such ports as may be named in the permit, and shall be subject to such special conditions as shall be set forth in the permit to provide adequate safeguards against pest entry.

§ 319.8-9 *Bale covers.* (a) Except as otherwise noted in this section, entry

may be authorized, subject to vacuum fumigation, through such northern ports, ports in the State of California, or Mexican Border ports as may be named in the permits, of bale covers which have been used with foreign cotton; or entry may be authorized without vacuum fumigation at such northern or California ports subject to movement of the bale covers to an approved mill or plant the owner or operator of which has executed an appropriate agreement with the Bureau similar to that described in § 319.8-6 (a) (2).

(b) Bale covers requiring vacuum fumigation as a condition of entry, which arrive at a port other than a northern port, at which port approved vacuum fumigation facilities are not available, may be entered only for immediate transportation by all-water route to a northern port, or to a California port where such facilities are available, for vacuum fumigation or forwarding to an approved mill for utilization, provided that such forwarding may not be made overland from a northern port to a California mill.

(c) Second-hand burlap or other fabric (under whatever trade name or trade designation) of the kinds ordinarily used for wrapping or containing cotton, grain, or root crops but which has not been so used, and American cotton bagging, commonly known as coarse gunny, which has been used to cover cotton grown in the United States only, may enter at any port under permit, without vacuum fumigation or other treatment.

(d) Bags or parts of bags that have been used for root crops, which arrive in the United States from a country where the golden nematode of potatoes is known to occur, and bags or parts of bags, regardless of their source, if found to be contaminated with such pest, may be entered subject to immediate treatment at the port of arrival in such manner and according to such method as the inspector may select from administratively authorized procedures known to be effective under the conditions under which the treatment is applied.

(e) Bags or parts of bags that have been used as containers of wheat or wheat products that have not been so processed as to have destroyed all flag smut disease spores, or have been used as containers of field seeds separated from wheat during the process of screening, arriving in the United States from a country where the flag smut disease¹ is known to occur, and intended for reuse here as grain containers, may be entered subject to immediate treatment at the port of arrival. Such bags and parts of bags imported for approved utilization may enter subject to paragraph (a) of this section.

(f) Bags or parts of bags that have been used for grains exported from the United States and returned thereto empty without use abroad, may be entered without restriction upon presentation to an inspector of satisfactory

¹ Regulations applicable to the entry of other products from countries infected with the flag smut disease are found in §§ 319.59, 319.59-1 et seq.

evidence of their origin and subsequent handling.

(g) The finding in a bale of fabric of a kind specified in this section will subject the entire bale to the requirements of this section applicable to the fabric found. The finding in a shipment of one bale that contains fabric of a kind specified in this section will subject all bales in the shipment to the requirements of this section applicable to the fabric found in the one bale. In the case of American cotton bagging or coarse gunny which has been used to cover cotton grown in the United States only, if there appear attached to such material patches of the finer burlaps or other fabrics which, in the opinion of the inspector, are strictly in the nature of patches and represent such an inconsiderable proportion as not to affect the character of the bale as a whole, treatment is not required. This provision does not apply, however, to bales of a mixed character which contain both American cotton bagging or coarse gunny which has been used to cover cotton grown in the United States only, and the finer fabrics, whether these latter have or have not been used as cotton wrappings.

ADDITIONAL CONDITIONS FOR ENTRY OF COTTON AND BALE COVERS FROM MEXICO

§ 319.8-10 From contiguous areas of Mexico—(a) Lint, linters, and waste.

(1) Contingent upon the continued maintenance by the duly authorized Mexican officials of effective quarantine measures to prohibit the movement into contiguous areas of Mexico of cotton and bale covers from other parts of Mexico infested with the pink bollworm of cotton or from countries other than the United States, the entry of lint, linters, and waste that have been certified by an inspector as having been produced in the contiguous areas of Mexico and as having been handled under sanitary conditions paralleling those required by § 301.52-1 et seq. of this chapter, for like products originating in comparable parts of the United States designated as pink bollworm regulated areas in § 301.52-2 or amendments thereof, will be authorized through ports named in the permits for movement into such regulated areas of the United States. Upon arrival at such ports, the lint, linters, and waste will be released from further plant quarantine entry restrictions, and will immediately become subject to the requirements of § 301.52-1 et seq. of this chapter, applicable to like products produced in the area into which the importation is made.

(2) In the event that effective quarantines are not so maintained by Mexican officials, or should an inspector be unable to certify lint, linters, or waste as specified in subparagraph (1) of this paragraph, the entry of such lint, linters, and waste from contiguous areas of Mexico shall be subject to the requirements of this subpart applicable to the importation of such material from countries other than Mexico.

(b) Cottonseed cake and meal. Entry of cottonseed cake and cottonseed meal from contiguous areas of Mexico may be authorized through any port at which

the services of an inspector are available, subject to examination by an inspector for freedom from contamination. If found to be free from such contamination, the importation will be released from further plant quarantine entry restrictions. Importations of such cottonseed cake or cottonseed meal, found to be contaminated, will be refused entry or subjected as a condition of entry and release to such safeguards as the inspector may prescribe, including treatment in accordance with a method selected by him from administratively authorized procedures known to be effective under the conditions under which the safeguards are applied.

(c) Cottonseed and cottonseed hulls.

(1) Entry of cottonseed is authorized when certified by an inspector as having been produced in a contiguous area of Mexico, as having been treated by a method satisfactory to the Chief of Bureau, and as having been subsequently protected from contamination.

(2) Entry of cottonseed hulls is authorized when certified by an inspector as having been produced from seed that was treated in a contiguous area of Mexico by a method satisfactory to the Chief of Bureau, and as having been subsequently protected from contamination.

(3) Upon arrival in the United States such cottonseed or cottonseed hulls shall be released from further plant quarantine entry restrictions and shall immediately become subject to the requirements of § 301.52-1 et seq. of this chapter, applicable to cottonseed and cottonseed hulls produced in the area into which the importation is made.

(d) Bale covers. Entry of bale covers from contiguous areas of Mexico is authorized under the same conditions as those prescribed in § 319.8-9 for bale covers from countries other than Mexico.

§ 319.8-11 From West Coast of Mexico—(a) Lint and linters. Contingent upon the continued maintenance by the duly authorized Mexican officials of effective quarantine measures to prohibit the movement into the West Coast of Mexico of cotton and bale covers grown or handled in parts of Mexico infested with the pink bollworm of cotton or in countries other than the United States, and upon continued freedom of this area from infestation with the pink bollworm of cotton, compressed lint and linters originating in the West Coast of Mexico may be entered through such ports on the Mexican Border as are specified in the permits. In the event that either of these contingencies cannot be met, lint and linters originating in the area comprising the West Coast of Mexico shall be subject to the requirements of this subpart applicable to the importation of such material from countries other than Mexico. Vacuum fumigation at an approved plant may be substituted for compression.

(b) Uncompressed lint and linters from the West Coast of Mexico may be entered for immediate transportation to a port designated by the inspector and by a route selected by him from a list of administratively approved ports and routings available to him, for compres-

sion or vacuum fumigation or such material may be entered for movement in customs custody to an approved mill or plant the owner or operator of which has executed an agreement with the Bureau as described in § 319.8-6 (a) (2).

§ 319.8-12 From Imperial Valley, Mexico. Contingent upon the continued maintenance by the duly authorized Mexican officials of effective quarantine measures to prohibit the movement into the State of Baja California, Mexico of cotton and bale covers grown or handled in other parts of Mexico or in countries other than the United States, and upon continued freedom of that State from infestation with the pink bollworm of cotton, cotton and bale covers originating in the Imperial Valley of Mexico may be entered through such ports as are specified in the permits. In the event that either of these contingencies cannot be met, or if conditions are found to exist in the Territory of Baja California which in the opinion of the Chief of Bureau would increase the risk of pest introduction into the United States by a continued operation of this section, cotton and bale covers originating in the Imperial Valley of Mexico shall be subject to the requirements of this subpart applicable to the importation of cotton and bale covers from countries other than Mexico.

§ 319.8-13 From other parts of Mexico. Entry of Mexican cotton and bale covers not otherwise specifically provided for in §§ 319.8-10 to 319.8-12, inclusive, shall be subject to the requirements of this subpart applicable to the importation of cotton and bale covers from countries other than Mexico.

MISCELLANEOUS PROVISIONS

§ 319.8-14 Reentry into United States of cotton exported therefrom. (a) Cotton and bale covers grown, produced, or handled in the United States, and in the original bales or other containers in which such material was exported therefrom, may reenter the United States at any port under permit, without vacuum fumigation or restriction as to utilization, upon compliance with §§ 319.8-2, 319.8-4, and 319.8-5, and upon the submission of evidence satisfactory to the inspector that such material was grown, produced, or handled in the United States and does not constitute a risk of introducing the pink bollworm of cotton.

(b) Cotton and bale covers of foreign origin imported into the United States in accordance with this subpart and exported therefrom, when in the original bales or other original containers, may reenter the United States under the conditions outlined in paragraph (a) of this section.

§ 319.8-15 Samples. (a) Samples of lint, linters, waste, cottonseed cake, and cottonseed meal may be entered without further permit other than the authorization contained in this section, but subject to inspection and such treatment as the inspector may adjudicate necessary.

(b) Samples of cottonseed or seed cotton may be entered subject to the conditions and requirements outlined in §§ 319.8-2, 319.8-4, and 319.8-8.

PROPOSED RULE MAKING

(c) Bales or other containers of cotton shall not be broken or opened for sampling, nor shall samples be withdrawn until the inspector has so authorized and has prescribed the conditions and safeguards under which such samples shall be obtained.

§ 319.8-16 *Treatment.* (a) Vacuum fumigation as specified in this subpart shall consist of fumigation in a vacuum fumigation plant approved by the Chief of Bureau, under the supervision of an inspector and to his satisfaction. Continued approval of the plant will be contingent upon the granting by the operator thereof, to the inspector, of access to all parts of the plant at all reasonable hours for the purpose of supervising sanitary and other operating conditions, checking the efficacy of the apparatus and chemical operations, and determining that wastage has been cleaned up and disposed of in a manner satisfactory to the inspector; and upon the maintenance at the plant of conditions satisfactory to the inspector.

After cotton and bale covers have been vacuum fumigated they shall be so marked under the supervision of an inspector. Such material may thereafter be distributed, forwarded, or shipped without further plant quarantine entry restriction.

Cotton and bale covers held by an importer for vacuum fumigation must be stored under conditions satisfactory to the inspector.

(b) An inspector may authorize the substitution of processing, utilization, or other form of treatment for vacuum fumigation when in his opinion such other treatment, selected by him from administratively authorized procedures, will be effective in eliminating infestation of the pink bollworm of cotton.

§ 319.8-17 *Release of cotton and bale covers after 18 months' storage.* Cotton and bale covers, the entry of which has been authorized subject to vacuum fumigation or other treatment because of the pink bollworm only, and which have not yet received such treatment but have been stored for a period of 18 months or more in a port in the north or in a location within a pink bollworm regulated area designated in § 301.52-2 of this chapter, will be released from further plant quarantine entry restrictions.

§ 319.8-18 *Collection and disposal of waste.* (a) Importers shall handle imported, unfumigated cotton and bale covers in a manner to avoid waste. If waste does occur, the importer or his agent shall collect and dispose of such waste in a manner satisfactory to the inspector.

(b) If, in the judgment of an inspector, it is necessary as a safeguard against risk of pest dispersal to clean railway cars, lighters, trucks, and other vehicles used for transporting such cotton or bale covers, or to clean piers, warehouses, fumigation plants, mills, or other premises, the importer or his agent shall perform such cleaning, in a manner satisfactory to the inspector.

(c) All costs incident to such collection, disposal, and cleaning other than

the services of the inspector during his regular tour of duty, shall be borne by the importer or his agent.

§ 319.8-19 *Importation for exportation, and importation for transportation and exportation.* (a) Importation of cotton and bale covers for exportation, or for transportation and exportation in accordance with the quarantine and regulations of this subpart shall also be subject to §§ 352.1 to 352.8, inclusive, of this chapter, and amendments thereof.

(b) Importation of unfumigated lint, linters, waste, cottonseed cake, cottonseed meal, and bale covers for cotton only at northern ports, for exportation or for transportation and exportation through another northern port, may be authorized by the inspector if, in his judgment, such procedures can be authorized without risk of introducing the pink bollworm of cotton.

(c) Importation of lint, linters, and waste from Mexico for transportation and exportation may be authorized under permit if such material is compressed before, or immediately upon entry into the United States, or is compressed while enroute to the port of export at a compress specifically authorized in the permit. The ports of export which may be named in the permit shall be limited to those that have been administratively approved for such exportation.

(d) Importation of uncompressed lint, linters, and waste from Mexico may be authorized under permit at Brownsville, Texas for exportation. Importation of such material may also be authorized at such other ports and under such conditions as may be designated in the permits for transportation to and exportation from the designated ports.

§ 319.8-20 *Ports of entry or export.* When ports of entry or export are not specifically designated in the regulations in this subpart but are left to the judgment of the inspector, the inspector shall designate only such ports as have been administratively approved for such entry or export.

§ 319.8-21 *Costs and charges.* The services of the inspector during regularly assigned hours of duty and at the usual places of duty shall be furnished without cost to the importer. The Bureau will not assume responsibility for any costs or charges, other than those indicated in this section, in connection with the entry, inspection, treatment, conditioning, storage, forwarding, or any other operation of any character incidental to the physical entry of an importation of a restricted material.

§ 319.8-22 *Material refused entry.* Any material refused entry for noncompliance with the requirements and conditions of this subpart shall be promptly removed from the United States or abandoned by the importer for destruction, and pending such action shall be subject to the immediate application of such safeguards against escape of plant pests as the inspector may prescribe. If such material is not promptly safeguarded by the importer, removed from

the United States, or abandoned for destruction to the satisfaction of the inspector it may be seized, destroyed, or otherwise disposed of in accordance with section 10 of the Plant Quarantine Act (7 U. S. C. 184a). Neither the Department of Agriculture nor the inspector will be responsible for any costs accruing for demurrage, shipping charges, cartage, labor, chemicals, or other expenses incidental to the safeguarding or disposal of material refused entry by the inspector, nor will the Department of Agriculture or the inspector assume responsibility for the value of material destroyed.

§ 319.8-23 *Importations by the Department of Agriculture.* Cotton and bale covers may be imported by the Department of Agriculture for experimental or scientific purposes under such conditions as may be prescribed by the Chief of Bureau, which conditions may include clearance through the Division of Plant Exploration and Introduction of the Bureau of Plant Industry, Soils, and Agricultural Engineering.

§ 319.8-24 *Applicability of Mexican Border Regulations.* The quarantine and regulations in this subpart in no way affect the applicability of Part 320 of this chapter, the Mexican Border Regulations, to the entry from Mexico of railway cars or other vehicles that may contain cotton or bale covers or be contaminated therefrom.

The purposes of the proposed action are to rescind the present restrictions on the importation of cottonseed oil from Mexico; to include as a basis for quarantine action the hazards of introducing the golden nematode of potatoes and the flag smut disease in used bagging; and to consolidate, revise, and systematize the quarantine and the several orders, and regulations relating to the importation of cotton lint, (baled or unbaled), cotton and cotton wrappings, and cottonseed cake, meal, and all other cottonseed products, except oil. Conditional importation under safeguards of unfumigated cotton and cotton products would be allowed when such products are destined to an approved mill operating under an agreement to utilize or process the products in a manner to eliminate all possibility of pest introduction. Unfumigated cotton that has been stored in certain geographical areas in the United States for a period of 18 months would be released without further treatment. The proposed regulations would also revise certain established procedures to conform to current experiences and to knowledge acquired as to hazards of pest introduction involved.

The proposed revision would supersede 7 CFR 319.8, 319.8-1 et seq., effective November 11, 1944, as amended effective February 6, 1948; 7 CFR 321.101, effective July 1, 1915; 7 CFR 321.102 to 321.114, inclusive, effective August 1, 1917, as revised effective December 11, 1937, July 1, 1938, and February 2, 1945; 7 CFR 321.201, effective July 16, 1917; and 7 CFR 321.203 to 321.208, inclusive, effective July 16, 1917, as amended effective August 7, 1925; as well as all

administrative instructions supplementary thereto.

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Chief of the Bureau of Entomology and Plant Quarantine.

Agricultural Research Administration, United States Department of Agriculture, Washington 25, D. C., within 30 days after the date of the publication of this notice in the *FEDERAL REGISTER*.

NOTICE OF FILING OF PLAT OF SURVEY

JULY 7, 1952.

Notice is given that the plat of original survey of the following described lands, accepted March 12, 1952, will be officially filed in the Land Office, Anchorage, Alaska, effective at 10:00 a. m. on the 35th day after the date of this notice:

U. S. SURVEY No. 3069 ALASKA

Spruce Cape Small Tract Group, embracing lots 1 to 30, inclusive; located in latitude 57° 48' 07" North, longitude 152° 22' 15" West.

The area described contains 39.04 acres.

The lands are included in the withdrawal made by Executive Order No. 8344 of February 10, 1940, from settlement, location, sale or entry for classification and in aid of legislation.

Anyone having a settlement or other right to any of these lands initiated prior to the date of the withdrawal of the lands should assert the same within three months from the date on which the plat is officially filed by filing application under the appropriate public land laws, setting forth all facts relative thereto.

CHESTER W. McNALLY,
Acting Manager.

NW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$.

The above described lands comprise 391 tracts aggregating approximately 977.5 acres.

2. The lands are located near the village of Kenai, Alaska, on the west side of the Kenai Peninsula. Units No. 3A and 3B lie from 3 $\frac{1}{2}$ to 5 miles north and west of the village of Kenai and are accessible by the North Kenai Farm Road which traverses the west edge of the units. Units No. 4A and 4B lie from 1 $\frac{1}{2}$ to 3 miles east of Kenai and are accessible by the Kenai Junction to Kenai Road which traverses the units in an east-west direction. Situated for the most part on well-drained minor uplands, the lands support a vegetative cover of mixed stands of spruce, birch, and aspen. Adequate water for domestic purposes may be obtained from wells and sewage disposal may be made by the use of cesspools or septic tanks. No public utilities are available in the unit at the present time; however, such services as religious, educational, commercial, and transportation are obtainable in Kenai. The climate is a favorable combination of the temperate coastal climate of south central Alaska and the extreme continental climate of interior Alaska.

3. This classification order shall not become effective to change the status of the land or to permit the leasing thereof under the Small Tract Act of June 1, 1938, cited above, until 10:00 a. m. on July 29, 1952. At that time the land shall, subject to valid existing rights, become subject to application as follows:

(a) *Ninety-one day period for preference right filings.* For a period of 91 days from 10:00 a. m. on July 29, 1952, to close of business October 27, 1952, inclusive, to (1) application under the Small Tract Act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the Act of September 27, 1944, (58 Stat. 747, 43 U. S. C. Secs. 279, 282) as amended, and by other qualified persons

entitled to credit for service under the said act, subject to the requirements of applicable law, and (2) applications under any applicable public land laws, based on prior existing valid settlement and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans and by other persons entitled to credit for service shall be subject to claims of the classes described in subdivision (2).

(b) *Advance period for simultaneous preference right filings.* All applications by such veterans and persons claiming preference rights superior to those of such veteran filed on July 9, 1952, or thereafter, up to and including 10:00 a. m. on July 29, 1952, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public land laws.* Commencing at 10:00 a. m. on October 28, 1952, any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally.

(d) *Advance period for simultaneous non-preference right filings.* Applications under the Small Tract Act by the general public filed on October 8, 1952, or thereafter, up to and including 10:00 a. m. on October 28, 1952, shall be treated as simultaneously filed.

4. A veteran shall accompany his application with a complete photostatic, or other copy (both sides) of his certificate of honorable discharge, or of an official document of his branch of service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claim. Persons asserting preference rights, through settlement or otherwise, and those having equitable claim, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

5. All applications referred to in paragraphs 3 and 4, which shall be filed in the Land Office at Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938, shall

NOTICES

be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

6. Lessees under the Small Tract Act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, in the circumstances, are presentable, substantial, and appropriate for the use for which the lease is issued. Leases will be for a period of not more than three years, at an annual rental of \$5, payable in advance for the entire lease period. Every lease will contain an option to purchase clause and every lessee may file an application to purchase at the sale price as provided in the lease.

7. All of the land will be leased in tracts of 2.5 acres each, in accordance with the classification map on file in the Land Office, Anchorage, Alaska. The tracts, where possible, are made to conform in description with the rectangular system of survey, in compact units.

8. Lessees must locate any well or sewage disposal facility according to the regulations and laws of the Territory of Alaska.

9. The leases will be made subject to rights-of-way for road purposes and public utilities, of 50 feet in width, along section and/or quarter section lines and 33 feet in width along other tract boundaries, as shown on the classification maps on file in the Land Office, Anchorage, Alaska. Such rights-of-way may be utilized by the Federal Government, State, Territory, county, or municipality, or any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

10. All inquiries relating to these lands shall be addressed to the Manager, Land Office, Anchorage, Alaska.

FRED J. WEILER,

Chief, Division of Land Planning.

TUCUMCARI IRRIGATION PROJECT,
NEW MEXICO

ANNOUNCEMENT OF ANNUAL WATER RENTAL
CHARGES

JUNE 20, 1952.

1. *Water rental.* Pursuant to Article 10 of the contract of December 27, 1938, irrigation water will be furnished, when available, upon a rental basis during the irrigation season of 1953, where the progress of construction will permit, to the irrigable lands in the Arch Hurley Conservancy District described below:

Entire project irrigable area embracing all units from 1 through 7—water to be furnished beginning about April 1, 1953.

Irrigable lands shall be as designated by the Secretary under date of October 5, 1951, and described in detail in the "Tabulation of Irrigable Areas" dated January 2, 1951. Any qualified water user wishing to ascertain the irrigability of any tract of land may do so by examining copies of this designation in the office of the Arch Hurley Conservancy District.

2. *Charges and terms of payment.*

(a) The minimum water rental charge for irrigable land within the boundaries of the Arch Hurley Conservancy District, as above described, shall be \$3.75 per irrigable acre, payment of which will entitle the water user to one acre-foot of water per irrigable acre, or so much thereof as may be available in the event of pro-ration. Additional water will be furnished during the irrigation season, if available, at the rate of \$2.00 per acre-foot. In the event applications received are for an amount of water in excess of the available supply all deliveries will be subject to pro-ration to the extent deemed necessary.

(b) All charges shall be payable by the District to the United States in advance of the delivery of water, minimum water rental charges payable for irrigable lands which do not apply for water shall be due on or before June 1, 1953.

3. Water will be delivered and measured by Government Forces at the nearest measuring device to the individual farm.

4. The District will request water delivery for, and certify to the United States as entitled to receive water, only such lands as are owned or are held under contract of purchase by persons duly qualified to receive water under the terms of the Reclamation Act of June 17, 1902 (32 Stat. 388), and acts of Congress supplementary thereto or amendatory thereof, and who have duly complied with the requirements of the contract of December 27, 1938, between the United States and the District, including:

(a) The execution and delivery of the recordable contract as provided for in Article 30 (b) of said contract;

(b) The execution and delivery of the valid recordable contract, in case of ownership of excess land, as provided for in Articles 30 (a) and 32 of said contracts.

5. Individual applications for water on forms approved by the United States and the payments required by this announcement will be received at the office of the Secretary of the Arch Hurley Conservancy District, Tucumcari, New Mexico. Requests by the District for water for such lands as are entitled to receive water and payments by the District to the United States will be received at the office of the Bureau of Reclamation, Tucumcari, New Mexico.

6. The above water rental procedure will be followed since it has been determined that it is factually impossible, in view of the provision for construction of distribution works by the United States under the contract with the Arch Hurley Conservancy District dated December 27, 1938, to make water available for irrigation use during the season 1953

as contemplated in Article 8 of the contract.

Regional Director.

NOTICE FOR FILING OBJECTIONS TO ORDER
WITHDRAWING PUBLIC LANDS FOR USE OF
DEPARTMENT OF THE AIR FORCE FOR MILI-
TARY PURPOSES¹

For a period of 60 days from the date of publication of the above entitled order, persons having cause to object to the terms thereof may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, whether or not a hearing is held, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

OSCAR L. CHAPMAN,
Secretary of the Interior.

[Ceiling Price Regulation 83, Section 2,
Special Order 11, Amdt. 9]

GENERAL MOTORS CORPORATION
BASIC PRICES AND CHARGES FOR NEW
PASSENGER AUTOMOBILES

Statement of considerations. Special Order 11 established a schedule of prices and charges pursuant to section 2 of Ceiling Price Regulation 83 for sellers of new passenger automobiles and factory installed extra equipment manufactured by the General Motors Corporation. Subsequent to the issuance of Special Order 11 the General Motors Corporation has introduced a new item of factory installed extra, special or optional equipment on its Buick new passenger automobiles and a wholesale ceiling price has been approved on series 70 Buick passenger automobiles. The General Motors Corporation now desires to add this same item on series 50 Buick passenger automobiles. Accordingly, the same wholesale ceiling price has been established for this item. Special Order 11 is, therefore, amended to include a charge for the new item of factory installed extra, special or optional equipment.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 2 of Ceiling Price Regulation 83, this amendment to Special Order 11 is hereby issued.

NOTICES

1. The following charge for factory installed extra, special or optional equipment is added to the list of extra, special or optional equipment contained in paragraph 2 of Special Order 11:

FEDERAL POWER COMMISSION

[Docket No. E-6414]

NEBRASKA MID-STATE RECLAMATION
DISTRICT

NOTICE OF DECLARATION OF INTENTION

JULY 9, 1952.

Public notice is hereby given that the Nebraska Mid-State Reclamation District of Grand Island, Nebraska, has filed a declaration of intention pursuant to section 23 (b) of the Federal Power Act (16 U. S. C. 817) to construct a hydroelectric development and irrigation project (Docket No. E-6414) on the Platte River and certain of its tributaries in Dawson, Gosper, Buffalo, Hall and Merrick Counties, Nebraska. The proposed project will consist of: A diversion dam across the Platte River about 6 miles west of Overton, Nebraska, with a supply canal about 15.5 miles long extending Northeasterly therefrom to control works on the westerly end of the Elm Creek Reservoir System to be formed by a series of dams and dikes across ravines and draws and interconnected by short

canals. Water from Elm Creek Reservoir System will be diverted through the proposed Odessa Power Plant located about 1½ miles North of the town of Odessa to the Kearney Canal. Additional water will be diverted from the Elm Creek Reservoir System through the proposed Wood River Plant No. 1 into the proposed Riverdale Reservoir to be located to the east in the Wood River Watershed. Water from the Riverdale Reservoir will be diverted through the proposed Wood River Power Plant No. 2 to be located about 6½ miles North of the town of Odessa to the proposed Wood River Reservoir, forming a part of the proposed Staghorn Reservoir System. Water from the proposed Wood River Reservoir will then be diverted through the Wood River Plant No. 3 into Wood River. Wood River Reservoir will be connected to four other reservoirs of the Staghorn System to be formed by a series of dams and dikes across ravines and draws. The total power installation of the Elm Creek Reservoir and Staghorn Reservoir System will be approximately 30,700 kilowatts, which energy will be connected with the Nebraska Public Power System for distribution by it.

The Commission will investigate the proposed project and determine whether a license under the Federal Power Act is required or whether the project may be constructed upon compliance within the State Laws only. Any objection or comments concerning this matter should be communicated or submitted within 30 days from the date of publication of this notice to the Federal Power Commission, Washington 25, D. C.

[Docket Nos. G-1678, G-1996]

MICHIGAN-WISCONSIN PIPE LINE CO.
ORDER SUSPENDING PROPOSED RATE SCHEDULE, POSTPONING HEARING, CONSOLIDATING PROCEEDINGS FOR HEARING, AND SPECIFYING DATE OF HEARING AND PROCEDURE FOR CONSOLIDATED PROCEEDINGS

JULY 10, 1952.

On June 11, 1952, Michigan-Wisconsin Pipe Line Company (Michigan-Wisconsin) filed its Second Revised Sheet No. 5 to its FPC Gas Tariff, comprising its Rate Schedule G-1, providing for an increase in the rate of 31½ cents per Mcf of natural gas presently in effect under bond to 35 cents per Mcf, effective July 12, 1952. The proposed additional increase would result in increased payments by Michigan-Wisconsin's resale customers amounting to approximately \$3,871,000 annually, or 11.1 percent based on estimated sales for the twelve-month period ending July 31, 1953.

The present rate of 31½ cents per Mcf, contained in Michigan-Wisconsin's First Revised Sheet No. 5, which the filing of June 11, 1952, would supersede, was suspended by order issued April 25, 1951, in Docket No. G-1678, but became effective under bond on October 1, 1951, when

the proceedings in that docket were not completed at the end of the maximum suspension period of five months. The rate of 31½ cents per Mcf superseded a rate of 28 cents per Mcf and represented an increase of approximately \$3,771,775, annually, or 12½ percent.

From the cost data submitted by Michigan-Wisconsin in purported justification of the further increase of the rate from 31½ cents per Mcf to 35 cents per Mcf it appears that the proposed increase is based upon a working capital allowance which, among other things, ignores the availability of tax accruals for working capital purposes; upon a 6½ percent rate of return for which no support or explanation has been submitted although the rates presently in effect under bond are based, in part, on a 6 percent rate of return; upon anticipated increased purchase gas costs reflecting the proposed increased rate; and upon contemplated wage increases which have not been granted.

In view of the foregoing, and because of other items of a questionable nature appearing in the data submitted by Michigan-Wisconsin, it does not appear that the proposed increase in rates has been supported as required by section 4 (e) of the Natural Gas Act, and such increase may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful, and may place an undue burden upon ultimate consumers of natural gas.

As required by § 154.16 of the Commission's regulations Under the Natural Gas Act, a copy of said Second Revised Sheet No. 5 to Michigan-Wisconsin's EPC Gas Tariff was sent to each customer which would be affected thereby, and also to various State, county, and municipal authorities.

The Public Service Commissions of Michigan and Wisconsin, and the Cities of Milwaukee, Wisconsin, and Detroit, Michigan, filed objections to the proposed second increased rate, and have requested that such Second Revised Sheet No. 5 be suspended and a hearing held with respect to the reasonableness of the increased rate therein proposed.

Comments were also received from the Wisconsin Power and Light Company, Wisconsin Michigan Power Company, Wisconsin Natural Gas Company, Wisconsin Public Service Corporation, Keokuk Gas Service Company, Wisconsin Fuel and Light Company, Madison Gas and Electric Company, Michigan Gas Utilities Company, Milwaukee Gas Light Company, Fort Madison Gas Company, Michigan Gas & Electric Company, Iowa Southern Utilities Company, and Iowa Electric Company, each of which is a customer of Michigan-Wisconsin. Most of these customer companies oppose the proposed increased rate and request suspension of said Second Revised Sheet No. 5.

Hearings have been held, but have not been completed, in Docket No. G-1678 respecting the 31½ cents per Mcf rate which is presently in effect under bond. At such hearings, after Michigan-Wisconsin presented its justification, the hearings were recessed subject to further order of the Commission. By order issued June 11, 1952, the hear-

ings are to resume on July 21, 1952. It appears that the proposed increase filed June 11, 1952 and the rate which is the subject of the hearings in Docket No. G-1678 should be consolidated for hearing and the hearings in Docket No. G-1678 postponed to a date when the consolidated proceedings may go forward.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in § 4 (e) of such Act, concerning the lawfulness of Michigan-Wisconsin's FPC Gas Tariff, Second Revised Sheet No. 5, and that said Second Revised Sheet No. 5 and the rate schedule therein contained be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision thereon.

(2) Good cause exists for consolidating the proceedings in Docket Nos. G-1678 and G-1996 for the purpose of hearing, and for postponement of the hearings in Docket No. G-1678 as hereinafter ordered.

(3) It is necessary and appropriate to carry out the provisions of the Natural Gas Act, and it is in the public interest, that the procedure hereinafter prescribed shall be followed at the consolidated proceedings.

The Commission orders:

(A) The proceedings in Docket Nos. G-1678 and G-1996 be and the same are hereby consolidated for the purpose of hearing.

(B) The hearings in Docket No. G-1678 be and the same are hereby postponed to September 16, 1952, on which date a public hearing be held at 10:00 a. m. e. d. s. t. in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW, Washington, D. C., in the consolidated proceedings concerning the lawfulness of the rates, charges, and classifications contained in the First and Second Revised Sheets No. 5 to Michigan-Wisconsin Pipe Line Company's FPC Gas Tariff.

(C) Pending such hearing and decision on Second Revised Sheet No. 5 to Michigan-Wisconsin Pipe Line Company's FPC Gas Tariff, said Second Revised Sheet No. 5 be and the same is hereby suspended and the use thereof deferred until December 12, 1952, and until such further time as said Second Revised Sheet No. 5 may be made effective in the manner prescribed by the Natural Gas Act.

(D) At the hearings on September 16, 1952, Michigan-Wisconsin shall present its justification, in accordance with the provisions of section 4 (e) in support of the rate hereby suspended in Docket No. G-1996. After Michigan-Wisconsin has completed this presentation, other parties, including Commission Staff Counsel shall proceed with and conclude their cross-examination in Docket Nos. G-1678 and G-1996. *Provided, however,* That in the event that a request is made for a recess to permit preparation for cross-examination in the latter docket, the hearing shall be recessed by the Pre-

siding Examiner for no more than two weeks for that purpose.

(E) Interested State Commissions may participate in Docket No. G-1996, as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f) of the Commission's rules of practice and procedure.

Date of issuance: July 10, 1952.

NORTHERN NATURAL GAS CO.

ORDER FIXING DATE FOR ORAL ARGUMENT

JULY 10, 1952.

On July 2, 1952, the City of St. Paul, Minnesota, an intervenor in the above-entitled proceeding, and on July 9, 1952, the City of Waseca, Minnesota, and the Western States Utilities Company, intervenors herein, filed motions paralleling the motion to dismiss filed by Commission staff counsel in these proceedings on June 26, 1952, which motion, by Commission order issued July 3, 1952, was set for oral argument and the time fixed for the filing of memoranda of law or briefs.

The Commission finds: It is appropriate to carry out the provisions of the Natural Gas Act that the motions of the Cities of St. Paul and Waseca, Minnesota, and The Western States Utilities Company, be set for oral argument and that said motions be argued together with the motion of Commission staff counsel.

The Commission orders: The motions of the Cities of St. Paul and Waseca, Minnesota, and The Western States Utilities Company be set for argument before the Commission and orally argued together with the motion of Commission staff counsel, on July 17, 1952, at 10 a. m., e. d. s. t., in the Hearing Room, Federal Power Commission, 1800 Pennsylvania Avenue NW, Washington, D. PACIFIC GAS AND ELECTRIC CO.

NOTICE OF APPLICATION FOR LICENSE

JULY 8, 1952.

Public notice is hereby given that Pacific Gas and Electric Company, of San Francisco, California, has made application for license pursuant to the provisions of the Federal Power Act (16 U. S. C. 791-825r) for a proposed hydroelectric project, to be known as Pit No. 6 Project, and designated as Project No. 2104, on the Pit River near Redding in Shasta County, California, and affecting lands of the United States within Shasta National Forest. The proposed project would consist of: (a) a concrete gravity dam across Pit River, about 230 feet in height above the streambed, with top of crest at Elevation 1391 and normal operating surface at Elevation 1430, equipped with two 60 x 40-foot and one 22½ x 15-foot radial gates, and one 15-foot diameter gate-controlled sluice pipe; (b) a reservoir extending upstream to Pit No. 5 plant, with an effective capacity of approximately 4,500 acre-feet between normal operating water surface (Elevation 1430) and minimum normal operating water level (Elevation 1422) and a total storage of about 36,200 acre-feet at normal water surface (Elevation 1430); (c) water conduits to consist of two penstocks each 180 inches in diameter and about 160 feet long, to extend through the dam from a roller-gate controlled intake structure to the powerhouse; (d) a powerhouse immediately downstream from the dam, to house two vertical turbine-generator units of 36,000-kva., each (total 72,000 kva., 0.9 power factor, initial and ultimate capacity); (e) a substation and switchyard adjacent to the powerhouse to contain necessary switching and transforming equipment; (f) two 220,000-volt transmission lines about 3 miles long each, extending from the switchyard at Pit No. 6 plant to the junction with the applicant's interconnected primary transmission system; and miscellaneous hydraulic and electric appurtenances.

NOTICES

Any protest against the approval of this application or request for any action thereon, with the reason for such protest or request, and the name and address of the party or parties so protesting or requesting, should be submitted on or before August 25, 1952, to the Federal Power Commission at Washington 25, D. FINDING AND DETERMINATION OF CRITICAL
DEFENSE HOUSING AREAS UNDER THE
DEFENSE HOUSING AND COMMUNITY
FACILITIES AND SERVICES ACT OF 1951
(PUB. LAW 139, 82d CONG.)

JULY 15, 1952.

Upon a review of the construction of new defense plants and installations, and the reactivation or expansion of operations of existing defense plants and installations, and the in-migration of defense workers or military personnel to carry out activities at such plants or installations, and the availability of housing and community facilities and services for such defense workers and military personnel in each of the areas set forth below, I find that all of the conditions set forth in section 101 (b) of the Defense Housing and Community Facilities and Services Act of 1951 (Pub. Law 139, 82d Cong., 1st Sess.) exist.

Accordingly, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951 and by virtue of the authority vested in me by paragraph number 1 of Executive Order 10296 of October 2, 1951, I hereby determine that each of said areas is a critical defense housing area.

Savannah River, Georgia-South Carolina, Area. (The area consists of Aiken, Allendale, Barnwell and Bamberg Counties, and Orangeburg County, except the Townships of Elmore, Eutaw, Holly Hill, Providence and Vance, all in South Carolina; and Richmond, Columbia, and McDuffle Counties, and District 81-Wrens (including Wrens Town) in Jefferson County, all in Georgia.)

This supersedes certification under Docket No. 1 dated March 21, 1952.

DETERMINATION AND CERTIFICATION OF A
CRITICAL DEFENSE HOUSING AREA

JULY 15, 1952.

Upon specific data which has been prescribed by and presented to the Secretary of Defense and the Director of

Defense Mobilization and on the basis of other information available in the discharge of their official duties, the undersigned find that the conditions required by section 204 (1) of the Housing and Rent Act of 1947, as amended, exist in the area designated as

Savannah River, Georgia-South Carolina, Area. (The area consists of Aiken, Allendale, Barnwell, and Bamberg Counties, and Orangeburg County, except the Townships of Elmore, Eutaw, Holly Hill, Providence and Vance, all in South Carolina; and Richmond, Columbia, McDuffle Counties, and District 81-Wrens (including Wrens Town), in Jefferson County, all in Georgia.)

This supersedes certification under Docket No. 1 dated March 21, 1952.

Therefore, pursuant to section 204 (1) of the Housing and Rent Act of 1947, as amended, and Executive Order 10276 of July 31, 1951, the undersigned jointly determine and certify that the aforementioned area is a critical defense housing area.

Kidder, Peabody & Co. and Allen & Co.	13.35

The amendment further stating that United has accepted the bid of the group headed by the First Boston Corporation for the common stock as set forth above and that the purchasers intend to offer 92,230 of the shares to be purchased to a limited number of persons at a price of \$15.629 per share, resulting in an underwriters' spread of \$.25 per share; the record indicating that of the remaining 62,000 shares, the First Boston Corporation and Wertheim & Co. will each retain 25,000 shares for temporary investment only, and 12,000 shares will be retained by Gas Industries Fund, Inc.; and

The First Boston Corporation and Wertheim & Co., having filed a statement agreeing that so long as they retain any of the said shares, they will not (a) participate as underwriter in financing by South Jersey Gas Company on a negotiated basis or (b) attempt to place a representative or nominee on the Board of Directors of South Jersey Gas Company; and

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to the price to be received for the common stock, and the underwriters' spread with respect thereto:

It is hereby ordered, That jurisdiction heretofore reserved in connection with the sale of said common stock be, and the same hereby is, released, and that the said declaration, as further amended, be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 of the general rules and regulations under the act.

ATTLEBORO STEAM AND ELECTRIC CO. ET AL.
NOTICE OF FILING REGARDING ISSUANCE BY
SUBSIDIARIES TO PARENT COMPANY OF
PROMISSORY NOTES

JULY 10, 1952.

In the matter of Attleboro Steam and Electric Company, Beverly Gas and Electric Company, Gloucester Electric Company, Northern Berkshire Gas Company, Norwood Gas Company, Quincy Electric Light and Power Company, Southern Berkshire Power & Electric Company, Weymouth Light and Power Company, Worcester County Electric Company, New England Electric System, File No. 70-2896.

Notice is hereby given that New England Electric System ("NEES"), a registered holding company, and its above named public-utility subsidiary companies, hereinafter individually referred to as "Attleboro", "Beverly", "Gloucester", "Northern Berkshire", "Norwood", "Quincy", "Southern Berkshire", "Weymouth" and "Worcester County" and collectively referred to as "the borrowing companies", have filed applications-declarations, pursuant to the Public Utility Holding Company Act of 1935,

and have designated sections 6 (a), 7, 9 (a), 10 and 12 (f) of the act and Rules U-23, U-43 (a), and U-45 (a) thereunder as applicable to the proposed transactions, which are summarized as follows:

The borrowing companies propose to issue to NEES, from time to time but not later than September 30, 1952, additional unsecured promissory notes in an aggregate amount up to but not exceeding \$1,540,000. Said notes will mature December 1, 1952, and will bear interest at the prime interest rate charged by banks on similar notes at the time said notes are issued to NEES. It is stated in the applications-declarations that at the present time the prime interest rate paid by banks on notes similar to those proposed to be issued is 3 percent per annum. It is further stated that if said prime interest rate is in excess of 3 1/4 percent at the time of the proposed notes are to be issued, NEES and the borrowing company will file an amendment to this filing at least five days prior to the proposed issue date of such note. Such amendment will set forth the amount of the note proposed to be issued and the proposed rate of interest thereof. NEES and the borrowing companies request that unless the Commission notifies it and the applicable borrowing company or companies to the contrary within said five day period, the amendment shall become effective at the end of such period. The applications-declarations further state that the proposed notes may be prepaid, in whole or in part, without premium.

The following table shows for each of the borrowing companies the notes payable to NEES at June 30, 1952, and the aggregate maximum amount of such notes proposed to be issued during the period from July 1, 1952, to September 30, 1952:

Company	Notes payable to NEES at June 30, 1952	Aggregate maximum borrowings during period July 1, 1952, to Sept. 30, 1952
Attleboro	\$325,000	\$100,000
Beverly	2,125,000	150,000
Gloucester	555,000	100,000
Northern Berkshire	1,150,000	150,000
Norwood	200,000	90,000
Quincy	680,000	100,000
Southern Berkshire	805,000	50,000
Weymouth	650,000	100,000
Worcester	500,000	700,000
	6,990,000	1,540,000

The applications-declarations further state that the proceeds of the notes proposed to be issued are to be used by the borrowing companies for construction costs, cost of conversion to natural gas and to reimburse their treasuries for prior construction expenditures. The applications-declarations further state that incidental services in connection with the proposed note issues will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed \$200 for NEES and each of the borrowing companies, or an aggregate of \$2,000. The applications-declarations further state that no State commission

or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

NEES and the borrowing companies request that the Commission's order herein become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than July 23, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW, Washington 25, D. C. At any time after said date, the applications-declarations, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 and U-100 thereof.

NEW ENGLAND POWER CO.

NOTICE OF FILING REGARDING PROPOSED
NOTE ISSUES

JULY 10, 1952.

Notice is hereby given that a declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by New England Power Company ("NEPCO"), a public-utility subsidiary company of New England Electric System, a registered holding company. NEPCO has designated sections 6 (a) and 7 of the act and Rule U-23 thereunder as applicable to the proposed transactions, which are summarized as follows:

The declaration indicates that NEPCO presently has outstanding \$5,400,000 principal amount of promissory notes, due April 1, 1953, issued pursuant to a bank loan agreement with five banks, namely, the First National Bank of Boston (\$2,970,000), the Chase National Bank of the City of New York (\$702,000), the Hanover Bank (\$702,000), Irving Trust Company (\$702,000) and the New York Trust Company (\$324,000). Under its bank loan agreement, NEPCO proposes to issue to the above mentioned banks, from time to time, but not later than December 31, 1952, \$6,000,000 of additional unsecured promissory notes all of which will mature April 1, 1953. The proceeds of the new notes will be used for construction expenditures during the period from July 1, 1952 to December 1, 1952, and to reimburse NEPCO's treasury for prior construction expenditures.

The declaration states that each new note issued prior to October 1, 1952 will bear interest to that date at the six month prime commercial rate generally being charged by banks in Boston on the fifth business day prior to the issuance thereof, but in no event less than 3 percent per annum nor more than 3 1/4 percent per annum and will bear interest from October 1, 1952 to April 1, 1953, at said rate on October 1, 1952, but in no event less than 3 percent nor more than 3 1/2 percent per annum. The declaration further states that each new note issued after October 1, 1952, will bear interest to April 1, 1953, at said rate on the fifth business day prior to the issuance thereof, but in no event less than 3 percent per annum nor more than 3 1/2 percent per annum. The bank loan agreement under which the proposed notes will be issued provides for the payment of a commitment fee of 1/4 percent per annum from the effective date of the agreement to December 31, 1952, on the average daily difference between \$7,000,000, the amount of the banks' unborrowed commitment, and the additional amount borrowed under the agreement. Subject to certain restrictions, the proposed notes may be prepaid, in whole or in part, without premium.

According to the declaration, NEPCO expects that its note indebtedness will be financed through the issuance of capital stock and first mortgage bonds in approximately equal amounts late in 1952 or early in 1953 and, in this connection, NEPCO proposes that the proceeds of any permanent financing, except financing (including the assumption of indebtedness of Connecticut River Power Company) for the acquisition of properties of Connecticut River Power Company, done before the maturity of the notes proposed to be issued, will be applied in reduction of, or in total payment of notes then outstanding, and the amount of authorized but unissued notes, if any, will be reduced by the amount, if any, by which such permanent financing exceeds the notes at the time outstanding.

The declaration states that incidental services in connection with the proposed note issues, will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed \$1,000. The bank loan agreement provides that NEPCO will reimburse the First National Bank of Boston, as Agent for the five lending banks, for out-of-pocket expenses and NEPCO expects such expenses to be nominal.

The declaration indicates that the New Hampshire Public Utilities Commission has approved the proposed issuance and sale of the additional notes and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

NEPCO requests that the Commission's order herein become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than July 23, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the

nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW, Washington 25, D.C. At any time after said date, the declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

E. L. BREWSTER ET AL.

MEMORANDUM OPINION AND ORDER REVOKING BROKER-DEALER REGISTRATIONS

JULY 9, 1952.

In the matter of Edward Leroy Brewster, d/b/a E. L. Brewster, 127 Colony Street, Meriden, Connecticut; The Three Brooks, Inc., North Street, Greenwich, Connecticut; Wilmer R. Chance, d/b/a W. R. Chance & Co., 141 Milk Street, Boston 9, Massachusetts; Clyde F. Frost, d/b/a Clyde F. Frost Co., 24 Federal Street, Boston 10, Massachusetts; Ross & Company, Inc., 507 Service Building, Rutland, Vermont.

These are proceedings pursuant to section 15 (b) of the Securities Exchange Act of 1934 ("the act") to determine whether the registrants named above, who are registered as broker and dealer, willfully violated section 17 (a) of the act and Rule X-17A-5 thereunder and, if so, whether it is in the public interest to revoke their registrations.

The proceedings were instituted by the issuance of separate notices and orders for hearing, copies of which were sent by registered mail to the addresses last furnished us by the registrants in their registration applications or amendments thereto. These registered notices were returned to us by the Post Office Department with notations indicating that the registrants could not be found at the addresses given. None of the registrants appeared in person or was repre-

¹ Section 15 (b) provides in part: "The Commission shall, after appropriate notice and opportunity for hearing, by order * * * revoke the registration of any broker or dealer if it finds that such * * * revocation is in the public interest and that (1) such broker or dealer * * * (D) has willfully violated any provision * * * of this title, or of any rule or regulation thereunder."

² Our orders and notices instituting these proceedings provided that the same be published in the FEDERAL REGISTER not later than 15 days prior to April 28, 1952, the date set for hearings of the matters. Pursuant to this provision the orders and notices were published in the FEDERAL REGISTER of April 9, 1952, 17 F. R. 70, pp. 3131-3.

sented by counsel on the date set for hearing.

On November 28, 1942, we promulgated Rule X-17A-5 under section 17 (a) of the act, which provides, among other things, that every registered broker or dealer must file with this Commission a report of financial condition during each calendar year commencing with the year 1943. Promulgation of the rule was announced by publication in the FEDERAL REGISTER, by release to the press, and by distribution to persons on our mailing list.

The registrations of the registrants have not been withdrawn, cancelled, revoked or suspended, and as of the institution of the proceedings were in full force and effect. Our records show that the registrants failed to file the required reports for 1951 and a number of years preceding.

Upon review of the records in these proceedings, we have concluded that each of the registrants violated section 17 (a) of the act and Rule X-17A-5 thereunder as a result of failure to file such reports. We conclude also that such violations were willful within the meaning of section 15 (b).¹

On the basis of the foregoing, we are of the opinion that it is necessary in the public interest to revoke the registration of each of the registrants.

Accordingly, it is ordered, That the registrations of Edward Leroy Brewster, doing business as E. L. Brewster; The Three Brooks, Inc.; Wilmer R. Chance, doing business as W. R. Chance & Co.; Clyde F. Frost, doing business as Clyde F. Frost Co.; Ross & Company, Inc., be, and they hereby are, revoked.

By the Commission.
